

Date:

November 4th

New features:

Implemented wireframes for the following pages:

1. Register

The wireframe shows a registration form titled "Create your Mixify Account". At the top, there is a navigation bar with links for Home, Mix, Prospects, and Logout. Below the navigation is a large green rectangular area. At the bottom of the green area, there is a "Link with" button followed by a Spotify button.

2. Login

The wireframe shows a login form titled "Login". It includes fields for "Username" and "Password", both represented by small grey rectangles. Below the password field is a link that says "Don't have an account? Click here to register". At the top, there is a navigation bar with links for Home, Mix, Prospects, and Register.

3. Mixify (Home)

Updated the Project Board with User Stories and Issues

The screenshot shows a Jira Project Board titled "Mixify: Project Board". The board is divided into four columns: "Week 1", "Week 2", "Done", and "User Stories".

- Week 1:** Contains 6 user stories:
 - mixify #7: Project board done
 - mixify #8: HTML for prospects/friends page front-end
 - mixify #9: HTML for login page front-end
 - mixify #10: HTML for register page front-end
 - mixify #11: Nav bar (with login / register / logout & prospects page / home page link) front-end
 - mixify #12: HTML for main intro page (just says what mixify is) front-end
- Week 2:** Contains 3 user stories:
 - mixify #2: Create & maintain database Database
 - mixify #1: User login & add to database Connect to Spotify API
 - mixify #13: Create database of friends for each person database
- Done:** Contains 0 user stories.
- User Stories:** Contains 6 user stories:
 - mixify #3: Login User Story: an existing user puts in their credentials and is brought to their account with their friends saved.
 - mixify #14: Register user story: a user doesn't exist yet so they go to sign up and have to sign in through their spotify account to create an account on mixify
 - mixify #15: mixify user story: a user runs mixify with selected friends and sees the songs everyone has in common
 - mixify #16: Add friends user story: a user sees a list of fellow users and can add and remove them from their friends list
 - mixify #5: Prospects/friends page (left side is list of friends with remove button, right side is list of all potential friends with add button)
 - mixify #6: Register

Each user story card includes a description, a due date (e.g., "2023-09-15"), and a progress indicator (green circle). Buttons for "+ Add item" are visible at the bottom of each column.
