What is Mixify?

Tools Used

- Docker
- PostgreSQL
- GitHub
  - GitHub Project Board
- VSCode
- HTML/CSS/EJS
- Bootstrap
- Figma
- NodeJS
- Localhost, CU Deployment server
- Spotify API

<%= **EJS** %>

Methodologies

- Code review before merging
- Pair/group programming
- Kanban board
- Scrum

Architecture Diagram

Challenges Faced

- **Initial Docker Compose Issues**
  - Prevented us from seeing a live demo
  - Overcame by communicating with our TA

- **Spotify API Dev Restrictions**
  - Issues with multiple users
  - Hindered testing
  - Overcame by using multiple accounts on one device

Live Demo Time!
